

[Nippon-ink Refillable Cartridge for NP-LC 37 / 57 Series](#)  
Before Use

Remove Transparent Stopper

Before Refill Procedure

Stick a Tape on the head to prevent ink from flowing

Refilling Nippon-ink Cartridge procedure for NP-LC 37 / 57 Series.

*Note: Ensure the Round White Stopper is remove before Installation otherwise Ink will not flow.*

Instruction and Procedure – 4 Simple Steps

- 1) **Picture 1** – Locate the colour stopper at the top of the cartridge.
- 2) **Picture 2** – Remove the Colour Stopper and tilt the cartridge at an angle before refilling the ink from the top of the cartridge. The Bleeding Hole will allow the air and bubble to escape. Thus it prevent ink spillage, ink purge out from the refilling hole, bubbles generated and/or ink can settle down faster.
- 3) **Picture 3** – Need to slant the cartridge at an angle before refilling estimated about 30 to 45 degrees. It helps the ink to flow down faster due to gravity and allow the air and bubble to escape from the Bleeding hole. **Must pump the ink Slowly into the cartridge.**
- 4) **Picture 4** – Replace the Colour Stopper at the top of the cartridge, ready for use.

*Note: Need to tape the nozzle before refill, to prevent ink leakage. User must ensure tape been removed from nozzle before installing the refill cartridge to the printer.*

General Information

For void Warranty issue, User can contact CASE and/or MTI for clarification and investigation.

*Print Head Clog due to dirt accumulated from Paper Media confirmed by Nozzle Check. Printer design using Ink Cartridge to purge dirt, cartridge less than 50% is not effective due to insufficient pressure. False Alarm, cartridge is not “Faulty”.
